Mr. David L. Bellaire
Mountain View Mining
2015 W. Mountain View
Phoenix, Arizona 85021

Dear Mr. Bellaire:

Re: Notice of Intention to Commence Small Mining Activities, Mountain View Mining/Milford-Bradshaw Project, S/001/017, Beaver County, Utah

On September 16, 1992, we received a copy of your Notice of Intention to Commence Small Mining Operations from the Division of State Lands and Forestry. The application for the proposed Mountain View Mining Project, located in the NW1/4 of the NW1/4 of Section 2, T28S, R9W and the W1/2 of the SW1/4 of Section 36, T27S, R9W, SLBM, Beaver County, Utah is complete and no additional information is required at this time.

For your reference, I have enclosed copies of our summarized rules regarding "Operation and Reclamation Practices", and the statutory penalty for failure to reclaim a minesite (attachments SMO-1 and SMO-2).

Please give special consideration to item #10 of the "Operation and Reclamation Practices" (attachment SMO-1). Stockpiling topsoil material prior to beginning your mining operation will help ensure successful revegetation efforts upon final reclamation of the minesite. If the area being mined is a solid rock outcrop, or if the land surface is very rocky, then soil stockpiling is probably not possible. However, even the first few inches of undeveloped material is worth saving to aid in later revegetation efforts, and future regulatory release from reclamation requirements.

Should you wish to expand your operation beyond the five (5) acre limitation, please notify this office as soon as possible to discuss the necessary permitting requirements.

A Memorandum of Understanding (MOU) between this Division and the State Department of Environmental Quality (DEQ) requires us to notify them upon receipt of a mining application. If you haven't already done so, you are advised to contact their office prior to starting your small mining operation to determine whether additional permits and/or approvals are required. We will forward a copy of this letter and your notice to the DEQ for their review. Their address and phone number is: Department of Environmental Quality, 288 North 1460 West, Salt Lake City, Utah, 84116, (801) 538-6121.

Thank you for your cooperation. When in the area, a member of the Division staff will examine the site. Best wishes with your mining operation.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
